Whispers from The Brighter World

Thursday, March 16, 2000 – 10:00 a.m.

We understand; you must get accustomed to this idea. What is happening to you is not common, but God is great.

Didn't you think that all this preparatory work might lead to a situation of this kind?

New possibilities have been given to you; you must accept them and use them. Everything in its own time; reject doubt, which must no longer hinder the process taking place within you.

We are shaking up your well-established little life with all these comments that surprise you, but you must get used to that. What is happening to you is a blessing; it should be taken as such.

Babuji
