Whispers from The Brighter World

Saturday, March 18, 2000 – 8:00 a.m.

The Earth turns round, so does the wheel of life; you all have a short period of time to achieve what can be your 'masterpiece'. Don't get lost in vain endeavours; do make the most of the opportunities you are given to make sure your path is successful. Make the right choices, in full knowledge of the facts, letting your conscience speak.

Do not reject what can seem utopian to you; we propose and you dispose.

My daughter, we won't revert today to the subject that has shaken you up a little over the last few days. We see that you react in the right way. Stay with positive thinking and build yourself a course of action from that perspective. You know how much you are loved, we want the best for you by giving new meaning to your life.
