Whispers from The Brighter World

Tuesday, March 21, 2000 – 10:00 a.m.

Remain confident; this force within you cannot resolve everything, but it must improve you. It takes a little time and all your faith to carry out this work of regeneration, in the broader sense of the word. A new being is being moulded in you to fulfil its mission.

Let the work take place, in all serenity. We follow your progression attentively.
