Whispers from The Brighter World
A Fourth Revelation

We must come back to an important aspect already addressed yesterday: your 'mission' within the Mission as a whole. You are one of its components; no matter what you do, your place is important and essential to its development. Be well aware of that and of what you represent as abhyasis practising assiduously.

"The Mission is growing and must be firmly structured. It needs persons in charge acting under Master's leadership. He cannot do and see everything. The task, at the material level, becomes very heavy; more and more he must set up a competent managerial system.

"That is not always easy. People's sensibilities should not be offended – though this kind of primary reaction should be overcome so as to only focus on the general interest of the group, whether big or small. Nothing prevents you from expressing yourself, from saying your way of seeing such-and-such an aspect; dialogue is important and authoritarianism is not recommended. You must, above all, learn how to live your spiritual life together."
