Whispers from The Brighter World

Wednesday, October 18, 2000 – 10:00 a.m.

Love is a vibration that is both subtle and powerful; it is capable of thwarting the unhealthiest plans. This force is often present in your lives, more than you imagine. Make sure it develops in each of you and becomes a natural means of expression.

This form of love can soften the most impenetrable hearts. Divine love manifests itself in the whole of creation. It is like beneficent dew that heals the wounds of humankind. It is a grace bestowed on people of goodwill who advance on a winding road, having agreed to fulfil a contract sometimes beyond their strength. Some choices are not easy to take on and prove to be beyond human capabilities.

All is counted in this world; the efforts of each one are taken into account.

One should never despair of humans. All, consciously or not, have the same aspiration: to rise above the mire and unite with the Creator.
