[Saint Thérèse of Lisieux Feast Day]

Who would believe that I have come to you on this festival day; this will remain our secret. Your sincere and unselfish love always touched me.

I am happy to have been a guide for you, until the moment of your encounter with the 'Beloved'. We are here in his light and the radiance of his great kindness. Your heart could not do better than offering itself to his.

My dear sister, God in His great mercy has allowed us to be united. Your path is special; you have not taken holy orders, but it is life that has given them to you.

The Medium: O Babuji, thank you for allowing this contact. [St. Thérèse of the Child Jesus]

You are sisters-in-spirit, and it is good for you to love and faithfully follow this great saint. She left a deep mark on your life, and this form of relationship, which you

have developed over such a long time, has brought you towards me, quite naturally and in the same spirit. Bless you both.

Babuji

It is a joy to express myself this way, something I have never been able to do until now; it is a grace for the two of us.

May these moments remain vivid in your heart; we will meet again one day and you will then be able to let it overflow with joy.
