Whispers from The Brighter World
A Fourth Revelation

*Thursday, December 16, 1999 - 8:00 a.m.*

*Few human beings know the true meaning of love and really experience it.*

*"It is not a momentary blaze, a very common human feeling easily utilised which goes, comes, is given, is taken back, and fluctuates with the passing days. That one is ersatz and has nothing to do with the reality of love resulting from the Divine. It is great, deep, inalterable, and truly boundless; it is lost in infinity, in light, in beauty and it is only as one with all that.*

*"You can only imagine it. Be eager to live it, to feel it very deeply in you. It is a sublime state; your sadhana will lead you to its golden banks one day and you will understand that it cannot be a human concept, even if you come near to it and your heart is already ready to receive it like a divine monarch.*

*"The more you advance, the more you feel its effects; the latter subjugate you and attract you to it. One day, you will irremediably succumb to its delights."*
