Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Friday, November 10, 2000 – 8:00 a.m.

My dear son, we follow your footsteps and we bless your actions.
We agree with the travels you are planning. Do what you can, we only ask you to reduce your activities.

Your travels on this Indian land are, energy-wise, less exhausting for you than in other parts of the world, where vibratory conditions are different.

The Misson's development in this country delights us. Move forward on this land, my son; foundations are strong thereon. It doesn't have to undergo the lack of understanding that reigns in certain countries and slows down its expansion.

This Himalayan ashram will have a big radiance. The site is favourable; it will be appreciated by high-level spiritual beings who will come in search of peace.

The place is well chosen; it is beneficial. We appreciate that achievement.

My Revered Master is happy to see the development of this path that is dear to him.

Spare yourself so that, under your impetus, construction will go on as regards the edifice that the Shri Ram Chandra Mission represents worldwide. We are with you and we carry you as much as possible.

Babuji
