Whispers from The Brighter World
A Fourth Revelation

Saturday, December 18, 1999 - 10:00 a.m.

The ancient writings changed with the passing centuries due to man-made alterations and deletions.

"In no religion are the documents presented today identical to the originals. In every era, some people thought they were inspired and made the modifications that they wanted.

"People should beware of that with regard to what we have written. Our books must not meet with the same fate; these are not individual stories given by some people, but our own writing. Even if it has to take time, we hope that one day these messages will be made available to those who will be ready to accept them. We also hope that beings who believe they are superior and claim to follow their inspiration will not make cuts and suppress what they deem inappropriate.

"These writings are to be taken as they are; we insist often enough on this point, knowing men's odd spirit and their assessments, which are often surprising."
