Whispers from The Brighter World
A Fourth Revelation

Unlike with humans, you can express to us all your love; there is no risk of disappointment. It is not always easy in your world to show one's feelings.

"You are heading for quite sad times, over-computerised, where humans will communicate through the Internet or other means. There, in anonymity, anything can be said, the best as well as the worst. This means is already diabolic in some respects. It is exploited dangerously; a kind of Mafia has taken possession of it. It is an easy means to deceive people.

"Therefore, you should take advantage of these modern technologies to make your life easier, but do not fall into the traps which they conceal. Do not become like robots; there is nothing dishonourable in showing one's sensitivity, one's love for the beautiful, or what is inspired in you by a human being, by a piece of music or a poem. When this is an expression of the beauty of nature, of divine love, of all that lives and moves, it is an homage to the Creator."
