Whispers from The Brighter World

Sunday, February 4, 2001 – 10:00 a.m.

Here we have a beautiful holiday, completed and successful, in the tradition of our Divine Way. The Great Master showed us the way. It is good to rejoice on this anniversary day of his coming to Earth. Future generations of abhyasis must remember it and venerate him, and rightly so. His incarnation has been a blessing for humanity. None of you has enough hindsight to appreciate it; it takes so long for great Avatars to take their true place in history. Each one of them lays the first stone of an edifice that keeps growing in accordance with the evolution of beings who populate the planet. They bring to the world the nourishment that suits it and is likely to make it grow.

Our brothers and sisters must never forget that this day is very special. This precise moment in the year represents a very favourable conjunction in the universal order. A kind of renewal occurs that elevates searching souls and doesn't leave others untouched, although they are ignorant of the why and how of this inner appeasement. Human beings, touched by grace, sometimes start out on a path they didn't even know existed.
