Whispers from The Brighter World

Saturday, February 10, 2001 – 10:00 a.m.

The secrets of ancient Egypt will reappear in plain sight when the time comes and the profound significance of all the existing symbols will finally be understood by as many people as possible, which is not the case with today's civilization.

Higher spirits in their level of evolution are not far from that comprehension. They grasp key elements of these mysteries, that will one day help us understand the true history of the world.

The Earth, in its functioning, can be compared to a living being with its strong points or chakras, which maintain a balance essential to its life and progression. Human beings, by their ignorance, endanger the future of the world by disorganizing what a higher race worked out a long time ago. The human being, on the pretext of progress, destabilizes not only the life of the planet, but also its attributes in the universal order. The race of giants is a reality; it had a profound impact on the history of the Earth, which is recorded in certain sacred places of the globe, many of which are in the country of Egypt.

*Most of those places are not yet explored by human, for the greatest good of all. Human beings must be protected from themselves as they are not capable, in the current state of knowledge, of deciphering what must be done for the future of the planet.*
