Whispers from The Brighter World

Saturday, March 7, 2001 – 3:30 a.m.

My dear son, at this time of night, my message will be short, our medium is tired.

It is good, my son, you are taking wise decisions. Your programme is correct and this stay in Satkhol will be beneficial for you. Good wheat has been sown in many places on Earth. Wind and rain will make the crop germinate, the sun will ripen it. Be happy and reassured, we bless you in your projects and undertakings.

Go in peace, our best wishes accompany you, you have all our love.

Babuji
