Whispers from The Brighter World

Thursday, April 12, 2001 – 8:00 a.m.

Do not let yourself be affected by all these events concerning the Mission. This campaign is not justified, as far as we are concerned. These television programmes are misleading and do a lot of harm in this country. They do a disservice to our members, who are doing no harm to anyone and are seeking to rise spiritually; and that is their wrongdoing in the eyes of a certain group of people who are prepared to do anything to gain an audience.

It is necessary for the Mission in France to let this painful period pass and wait for better days.

This society is saddening; it is sinking into violence, lust and dishonesty and is lashing out at men and women who do not harm their fellow beings.

Humanity is disconcerting. We are deeply saddened by this, but unfortunately we cannot change this world which, while progressing in a certain way, is grappling with forces that are terrifying and difficult to counter.

Keep praying unceasingly for this planet Earth, which is the object of all our attention. But this world is not easy to change; the negativity that characterizes it must manifest itself until the end of this cycle so that it will transform and start a new era.
