Whispers from The Brighter World
A Fourth Revelation

Tuesday, December 28, 1999 - 10:00 a.m.

Times will come when life will be difficult for all, especially in certain countries of the world. Faith will be your only recourse.

"Man is helpless in the face of raging elements. Look at what is happening in the world and you will see signs that herald great upheavals. They will not occur tomorrow. Nature takes its time, but you must prepare for them – even if it is only about suffering the impact of an economic situation that has become difficult because of countries more especially affected.

"Do not be afraid; a new era is starting and it must go through a stage whereby the world must change through an in-depth cleaning.

"True values must be reinstated and men must take a new look at themselves so that future times will be bearable for all."
