Whispers from The Brighter World

Wednesday, August 31, 2016 – 10:00 a.m.

To see only the beautiful, the good, is a strength; negative thoughts are not favourable to the spiritual blossoming of our abhyasis. Life follows its course – it is not always to everyone's liking, but an incarnation has its raison d'être. The school of life is not easy. Accepting that and doing one's best allows one to save valuable time. These comments may sound rather banal, yet it is good to gain this form of wisdom, as it fosters significant evolution. A spiritual practice well followed broadens future prospects and lessens their negative aspects. Sahaj Marg does not work so-called 'miracles', but its action generates results whose full importance time brings to light. It is up to each and every one to be committed and to bring to fruition as well as possible this resource they hold within themselves. Time allows one to better understand the reason for many events.

To all, the very best that can be, wisdom and discernment, under our ceaseless blessings.
