Whispers from The Brighter World

Monday, December 26, 2016 – 10:00 a.m.

Immerse yourself in us; this pervading silence fosters a moment more precious still. Your heart awaits this, as do ours. This ritual has become a tradition in Sahaj Marg. All these years of fidelity and exactness have facilitated the writing down of these messages. They are, and will remain, unique among their kind, in many respects. Our special relationship has fostered this long journey. We will meet again, of that you can be sure, and your action will continue in a different way – always through service, naturally. You have proved yourself so very well; love here is the guiding thread. You have never sought to put yourself forward, and this is precious to us. Many of our brothers and sisters follow these messages that help them on a daily basis. Can one dream of a more beautiful action! Many of our abhyasis act in this way and devote much of their time to service. We are very grateful to them and also delight to see them thus gaining very precious time on this long journey towards 'the Eternal'. 'Everything has its raison d'être' – each action, each event, adds to this most special experience that constitutes the Karma of each individual. Following a path like ours is decisive in one's progress towards the ultimate goal. A day will come when you will all be able to realise this and fully benefit from such grace.

Blessings to all.

Babuji
