Whispers from The Brighter World
A Fourth Revelation

Thursday, December 30, 1999 - 8:00 a.m.

At this ending of the century, we would like an appeal to be made on this Earth to men of goodwill that consciousness awakens.

"How can one speak of progress under the current conditions where 'man is a wolf to man'? [Yet] the wolf is a wise animal species compared to the evil which man can do and the destructive means he shamelessly uses to destroy anything that resists him. We are deeply affected by this situation and we cannot check this devastating wave.

"We suffer from the suffering of so many men, women and children who undergo atrocities.

"How is it that the human being has reached such a stage? He will have to see this escalation through and the destiny of the Earth will have to be accomplished.

"The future is no bed of roses, we have said it already. If you must go through these difficult times one day and be distant from one another, separated by life, try to remember that the unity of heart must remain in this spiritual way of yours, which nothing, not even time, will be able to endanger.

"You will have to cling to this view of things."
