Whispers from The Brighter World
A Fourth Revelation

The Medium: "Your criticisms are justified, Babuji; why should I bother about the incomprehension of others, only you matter to me. Forgive my stupid reactions, and please use me as you please, as a conduit of the texts you may wish to give to conclude this last series. Only your will must prevail and you must be able to express yourself without taking account of my reservations."

Why do you mind human conventions, have you not gone beyond all that? You must conform to them, but in your heart another code of conduct exists. It is only that one which you must worry about, since it connects you with us. You see how important it is to reach this state? You should do your level best, in all conscience, and let people talk.

"You should connect with the inner master in any embarrassing situations. In silence and meditation, you will be inspired as to how to face up to the problems arising in your life.

"Nothing is simple, never; the truth has multiple facets. By advancing in wisdom, you will be able to better decipher what must guide your steps.

"We bless you all, dear children."
