Whispers from The Brighter World
A Fourth Revelation

Thursday, January 6, 2000 - 10:00 a.m.

My dear daughter, our contacts will not stop with these messages. Do not worry; our rendezvous will continue, and when the time comes, we will see how it will turn out. You are giving your best to go on until the end and to satisfy us.

"We will use your gifts in a different way. We already have an idea and we will see what your health condition allows.

"After the sheer madness caused by the advent of the year 2000, life continues, identical to what it was before. France is licking its wounds, and other countries more severely affected are trying to recover or to face up to things, since barbarity is going on.

"New regimes that are in place are not inclined to mercy; peace on the Earth is not for tomorrow.

"You, our faithful brothers and sisters, you have hearts full of love; you should become torches lighting the darkness into which the world has been plunged. The will for power and money has deteriorated everything.

"May our blessings and your sadhana protect you from these diabolical intrigues!"
