My dear son,

"At this hour in the night, my message will be short; our medium is tired.

"It is good, my son, you take wise decisions. Your programme is correct and this stay in Satkhol will be profitable to you. The good wheat is sowed in many points on Earth. Wind and rain will germinate the crop; the sun will ripen it. Be happy and reassured, we bless you in your projects and undertakings.

"Go in peace, our best wishes go with you, you have all our love."
