Whispers from The Brighter World

A Fourth Revelation

Monday, January 10, 2000 - 10:00 a.m.

The end of this fourth series does not mean the end of your function as a medium. We consider the number of these messages is sizeable enough to stop here. Our contacts will continue, do not worry, you will not be forgotten. Your gifts will be used differently; there is a need for renewal.

"All in nature is renewed, inside you and around you. It is a series of new beginnings and these cycles that follow one another must enable you to change on all levels.

"Start off this coming century with a heart full of hope. See yourselves as new beings, open-minded and well committed spiritually, strengthened by your faith.

"Nothing should seem unreachable to you; you can reach the goal. You should advance with a firm stride. Nothing should dishearten you: events, the behaviour of humans nor your brothers – who are candidates like you and following the same path.

"See the light at the end of the road and your ever-present Master who is attentive to your needs like a mother is with her children's needs."
