Whispers from The Brighter World
A Fourth Revelation

Tuesday, January 11, 2000 - 10:00 a.m.

Channeling is not widely known and not understood. Too many taboos and the ignorance of this possibility explain why many individuals reject it.

"The 'great minds' of your time who believe they are enlightened about all the mysteries of life would do better to not neglect any aspect of it.

"A complete mutation of the beings living on Earth will take place with time. The real capabilities of man, having been reduced more and more to a passive role, will reappear out of necessity.

"In the future, man will have to revert to a human dimension that is better adapted and truer.

"Time must do its work; changes occur slowly. When the system is completely distorted, it is necessary to move backwards, to find values that are more right. Progress, if it goes too far, can bring sorrow to men; everything will therefore need to be stopped through destruction.

"So has it been since time immemorial: civilisations more advanced than yours in terms of excesses were destroyed.

"Do not panic, that will not come tomorrow."
