Whispers from The Brighter World
A Fourth Revelation

Thursday, January 13, 2000 - 8:00 a.m.

Do not seek to imagine what life is beyond the Earth; you will not manage. You do not have major elements, which we cannot give you.

"We are in a vibratory world just like you, but so different. There is no point of comparison; therefore you cannot figure it out.

"You should only know that, between the medium and us, the communication is established on a special wavelength, and that her frequency of vibration must change to be adjusted to ours, hence the energy utilised by the vibration of the subtle bodies at the time of the contact.

"Never mind the why and the how; the result is there. It requires the right person and we have her, you have the evidence of it with the amount of written messages. When you come and join us in much more refined worlds, you will realise the subtlety of the operation.

"You should be able to appreciate what we give you and to draw all possible benefit from it."
