Whispers from The Brighter World
A Fourth Revelation

Thursday, January 13, 2000 - 10:00 a.m.

The purpose of the spiritual work you are doing is to refine your subtle bodies, to make sure that all your molecules vibrate in a different way. It is a whole transformation that takes place inside of you, without your being really aware of it.

"The divine energy which you receive and assimilate according to your own request does its work without your knowledge. With time you feel different; imperceptibly, a new being exists in you, and you end up becoming aware of it.

"You must go much further; you have the relevant means. With our assistance and your personal action, there is no limit to what we can hope for. Those among you who have been practising for a long time, if you look at yourselves very attentively, can notice this change.

"There is no wave of a magic wand. Other ways exist, but you are in this one, which is one of the most effective and very simple with regard to practice.

"If you are happy with your choice and if your work is carried out with ardour and faith, the sky is the limit."
