Whispers from The Brighter World

A Fourth Revelation

Whether you believe it or not, you are actually the spiritual person we refer to in these messages. You should not doubt, please; it is necessary to put up with this kind of situation.

"Thinking that these messages are about someone else is good up to some extent. You must recognise that what you have received is not ordinary; not doing it would be tantamount to doubting us as well as doubting the divine graces that are provided when required.

"That many see you as an ordinary person is devoid of interest; you know what we think of human judgements. Do not dwell on all that. What you acquire with the passing time is more precious. The hidden treasures are all the more valuable.

"Even if you are not happy to note down all this, think that you took, late in life, the commitment to write everything we dictate to you, about you. If the readers are bored by these comments, it is easy to turn the page.

"Follow your way, my child. Without you, these series would not exist and you would deprive some thirsty souls of comments that can help them. Believe me: their simplicity will be able to touch the hearts ready to receive them."
