Whispers from The Brighter World
A Fourth Revelation

Wednesday, January 19, 2000 - 10:00 a.m.

The origin of religions has already been alluded to. This truth has surprised you and will shock many of you, but it is a reality that no reasoning, not even time, will be able to change.

"Building on these first contacts with beings that came from elsewhere, a law and principles were given. A universal language, which is still being used and so will be until the end of time, remains as evidence, difficult to prove but real, of what was left by these higher beings.

"Humanity is still benefiting today from lessons that were given at that time. Their descendants, who rose up, mark time with their discoveries, their ideas that made the world evolve.

"It is a concept difficult to admit, even by open-minded beings, but the evidence of these allegations will be given in the future. Men who will be able to ascertain them will remain astounded. You will not be there any more to be edified, but our assertions are perhaps already enough for you.

"Your world would not be as it is today without the intervention of these extra-terrestrials a long time ago."
