Meditate more; you will thus help us in the work we are doing on you. When will you understand this?"

(10:30 a.m.)

"Yes, my child, we are here. Remember what I said to you one day: 'I want you to become like a pearl.' My exhortations have remained ineffective. Make the commitment to meditate more; we will be happy. Today is a day of grace on the Earth, be at peace. My message will be more serene so as not to worry your friends. But this partakes only of the continuous breathing of the universe, as per the established order. Nothing can stop the course of time. Do not be apprehensive. Earthly events are mere incidents compared to eternity; one day, you will laugh at them. Be strong, don't you have faith, faith in God, in us, your Masters who care for each one of you, like a mother for her children? Be confident, advance in surrender and love, and all will be well. France will not be the most affected by the future events; but economic repercussions will weaken the country. She will have to face up to things; she has seen worse, in the past. The purpose of these messages is to prepare you and not to frighten you. Fortify yourself through practice—you our aspirants, who have this privilege. The world needs your prayers; work accordingly.

"Blessings."
