Do not be afraid to advance towards areas which are unknown to you. Your safety is higher than on your highways. Dangers are on the Earth, lying in wait for you at each street corner. The spiritual way is broad, difficult in some respects. It takes perseverance and will, but you don't have to fear any risk. Have faith in the Master; he is the scout, the guide, who shows the way and protects you.

"Be happy to be engaged in a spiritual way. Your life has a meaning; you know where you are heading. So many humans live from day to day, awaiting death as an ending and not knowing that it is a beginning! Consider yourself fortunate not to be in this frame of mind and to know that on the other side of the veil, there are other worlds where you will continue your progress. Remove your self-doubts about yourselves; you can reach the goal. Whatever one man has achieved, others can achieve it.

"One has only to want it so, and be engaged in an effective system. Therefore, don't lose heart!"
