Whispers from The Brighter World
A Fourth Revelation

It is good. You are making progress, you dispel doubt from your mind and you write obediently things which you believe are very personal. You should not have this sense of propriety any more; heart to heart communication does not have this kind of barrier. Words must flow like spring water without anything disturbing them.

"We have 'driven you into a corner'; it has taken time to get there."

The Medium: "Dictate and I will write what you want. I do not belong to myself any more. I have the impression I do not exist any more as an individual. My heart is yours; use it as you please. What else can I tell you, you are the soul of my soul, you are everything and you dwell in me."
