Serious events are in the offing for the future. An immense inferno must flare up to purify the world. Don't be afraid, you should only advance calmly in faith.

"Certain actions are inevitable. We do not have to judge them. The world is in such a mess that it will be necessary to clear the air. We are using a poor image, but when the forces of evil go so wild, the reaction is sooner or later inevitable. My dear aspirants, I do not mean to alarm you. You are mature enough to become aware of the mess in which the Earth is. Always be trustful in your Masters, they do everything possible for your good."
