Contrary to the rumour, all will not be liberated during the celebration. But, by and large, many abhyasis will be happy, insofar as they can become aware of their progress, which is not commonplace. This kind of perception requires a very good reading of condition. Not many people are able to do it correctly. That is not a handicap. You have never been worried about your level, and the work was done.

"Only the result matters. Carry on your road, with—on this day—my special blessings."
