Whispers from The Brighter World
A Fourth Revelation

Saturday, March 11, 2000 - 10:00 a.m.

To us, you are a beacon with a limitless light-range. This is where lies your difference from those marking out the entrances of harbours and reefs. The light you reflect has an immeasurable range. It knows its objectives and its targets. All this work is done almost without your knowledge. You suspect something like that, but without really trying to know more about it; we appreciate that.

"We give you this information to help you endure this isolation which weighs on you.

"We bless you."
