Whispers from The Brighter World
A Third Revelation

Some days are more favourable than others for these contacts. Your physical state and the prevailing circumstances determine the vibratory quality of the moment. This does not question your capacities as a medium.

"You transcribe more or less easily, but the thought is respected, rest assured on this point. The vibrations of the Earth are not always favourable for us either. This planet is polluted at all levels and the situation has become very worrying. How can mankind be slowed down in its insane race to what it calls progress? It is more and more entangled in a time bomb it believes to be under control. It is nothing of the sort; this power is growing and will defeat it [mankind] inexorably. Man takes pride in controlling nature, which is preparing a spectacular turning to ensure its prerogatives.

"As we already said, the universal laws should not be contravened. They take their time, but everything here below will have to revert, in an immutable way, to the initial course of its life established at its origin. Life on Earth seems long to you, it is only a crotchet rest on the stave of time."
