Whispers from The Brighter World
A Third Revelation

Interiorise yourself, you will find in your heart reasons to continue your way. Each human being has a potential they must make use of; every one is unique and carries in them their characteristic mark. One's story is written in the registers of time and no one can shirk it. We repeat ourselves in these messages, but all your life is about repetition. Since your birth, you advance in a pre-established program, made of continuously repeated actions. You cannot escape this monotony; it shapes you, it gives you solid and necessary foundations.

"A human being must be structured, physically and morally, within a socio-cultural frame, which moulds him to foster his spiritual process.

"He must go through all states, put up with his social condition, his environment and his health. Being able to adapt is a sign of wisdom, which gives fortitude to face up to events. You should enjoy being alive; it is very formative and in line with your evolution. Put regrets and resentment aside. Build peace around you and in you, by turning a blind eye to your brothers' imperfections; they see yours. See to it to love without distinction and you will grow in wisdom."
