Whispers from The Brighter World
A Third Revelation

Sunday, August 12, 2001 - 10:00 a.m.

Many men, today, are trying to have a clear understanding of themselves. Their true nature intrigues them. They are released from superstitions that have dominated the world until now. They can foresee a different reality than the one generally taught. Concrete and striking facts will enlighten them on the realities of creation as well as on their own identity. Millennia have passed and knowledge has remained limited to a restricted number of individuals.

"This century, which is preparing the age of enlightenment, will speed things up. Man is wondering: where is the truth of his nature and what is the actual meaning of his life on this Earth? Wrong teachings were passed on from generation to generation, restricting people's minds and maintaining them in ignorance.

"The truth would give them strength, a power and the possibility to lead their life successfully, according to their targeted results. From this incarnation, with a view to a future and real evolution, they would be able to act with full knowledge of the facts, free in their choices and gearing their efforts to the goal to be reached."
