These messages offer another aspect of our teaching. It is more targeted on personal work and on every effort you must do to be in phase with ours. The Master does his work, but you can only modify some traits of your own personality. We cannot do it without your participation.

"Spiritual work lessens your egotistic reactions, but you are at the heart of the problem, and you must manage the transformation of your personality.

"Don't think that it is enough to move forward while saying: it is Master who does everything for me. Your personal investment must be important. No way can give convincing results without the efforts of the candidate. *It is necessary to re-examine this notion fixed in the minds of some abhyasis who think they can rest on their laurels, without making the slightest effort. You must know where you want to go, develop a strategy and stick to it. There, as in any other area, results require a minimum of work.*

"May these messages help you become aware of it. Wake up and act."
