Whispers from The Brighter World

Tuesday, September 17, 2013 — 10:00 a.m.

We have come a very long way with these messages. They are an expression of the Divine, offered to this beautiful Sahaj Marg Mission. They do, and will, contribute more and more to the development of a future world, one that is refined and restructured. They offer new foundations for a humanity that will be more awakened to what is essential than it now is in these troubled times. Everything happens slowly here below. Such are the laws for the moment, but a day will come when everything will shift to a new and redemptive order for humanity. Changes on this scale already occurred a very long time ago, allowing human beings of that era to take a significant step. Nothing is immutable here below; all that lives on this Earth testifies to the fact that everything moves and is renewed over time. Change is the essence of evolution. This is true not only for the human race, but also for everything that lives and follows the pace prevailing on this planet, which is itself a minuscule element of the whole creation.

"Let us return to our subject — may Sahaj Marg increasingly win over hearts and provide them with an element of spiritual life on this Earthly journey. Each incarnation is an opportunity to rise, to be refined for another journey that is yet to come. Life never stops. It continues on other planes of consciousness and deserves one's full care and attention. To each one the best; may all be strengthened in the face of adversity and fulfilled in their deepest wishes for their evolution. Blessings to all."
