Whispers from The Brighter World

Tuesday, January 14, 2014 — 10:00 a.m.

The heart is the place of all delights, where the true journey of a soul takes place. This fact is little known; the sages of the past — a very distant past — practised rituals to reinforce the vibration of subtle bodies and stimulate the spiritual heart. In a way, our method inherited some of these aspects. Going deeply into this method leads to an understanding of phenomena that are difficult for humans to perceive. Human beings are a mystery to themselves and will remain so for a very long time. Many events will take place, changing the human race so that a movement of liberation common to all will be established here below. The spiritual practice that we propose goes in this direction; one must truly interiorise oneself in order to understand. Our way is winning over hearts with time. When the moment of fulfilment has come, this path will truly display its potential and spread throughout the world in a manner that all of you cannot imagine.

"Nothing happens without reason. The Hyderabad ashram that is being constructed will become, as we have already said, the powerful flagship of our Mission. Many souls will be thirsting, looking for a method that can really meet their aspirations. In the future, following many events, India — with its highly spiritualised nature — will become a land of refuge conducive to the expansion of the soul. This is how it goes!"
