Whispers from The Brighter World
A Fourth Revelation

Friday, November 2, 2001 - 8:00 a.m.

Enlightened minds will accept these messages – you have evidence of this from the reactions of those who are privileged to read them. They are not hostile [to these messages] and have no reservations about some elements of information which we venture to give. The test proves positive. Having followed since the beginning our teachings provided to you through these writings, you are ready to accept some truths on the articulation of Creation, the role this planet plays in the solar system, and – on the whole – the vibration which characterises it.

"Reincarnation, which intrigues you, is a slow process that allows the soul to be refined and to be able to complete its mutation to reach higher planes. You already know that. There are other reasons, since, on a more general level, this work is an integral part of a subtle balance between the planets, which themselves form a large body propelled in the vastness of the universe. All this structure is subtle and cannot – for the time being – be revealed to you more precisely.

"What would more details provide you? Just be aware of the work that is incumbent upon you and the purpose of your stay on Earth."
