Whispers from The Brighter World

Saturday, January 17, 2015 — 10:00 a.m.

Sahaj Marg provides humans with a method that enables them to overcome, or at least to control, egotistic tendencies and all that can slow down their progress. There is much to do; after so many years we can still witness undesirable behaviours. May our abhyasis, in the wake of the new spiritual Master of the Mission who is vested with our powers by divine will, unite more than ever on this extraordinary journey that is beneficial to human beings of this time. There is so much to do beyond discord; unity is strength, empowerment and achievement of the best.

"The expansion of the Mission is very satisfactory. It is being strengthened on all levels — slowly but in an efficient and sound manner. These daily messages are given for the benefit of all our abhyasis. Some messages may be surprising, but our abhyasis are not children; it is up to them to adapt to a reality that sooner or later will catch up with them. These thousands of messages are within their reach. They can feed on them as they see fit, and even be enlightened on sensitive matters.

"The Mission of Sahaj Marg has nothing to hide. It is doing its utmost on all levels to ensure that the teachings that are in line with current reality can provide daily help to the greatest number. All our abhyasis are important to us, and they are dear to us in more than one way. We are working to help and support each of them, even if our views are not theirs. We work for the good of all. Special blessings to the whole of this Mission."
