Whispers from The Brighter World

Sunday, March 29, 2015 — 10:00 a.m.

What more can you write, you ask. These thousands of messages have accumulated over the years and have taken on importance. Happy are those of our aspirants who appreciate them. Each of the messages is a blessing for their hearts — why not emphasise it here once again! In such an area, repetition is necessary — it is the very principle of life. These writings will go very far in time and remain the trademark of Sahaj Marg — a spiritual path whose effects are unprecedented, preparing in their own manner the world of the future. Many changes will occur in the times to come; these changes will be decisive for the survival of humanity — a humanity that is expected to revert to a more reasonable scale of things in many domains where reason seems to go astray.

"One has to go to the end of what must be, so that a more appropriate balance can bring this world back to reason. A spiritual path can only go in that direction and help the greatest number — such is our fervent hope. One day, the divine goal will be achieved; here lies the objective of our work, one that cannot be easily assessed but that is active and fruitful, you can be sure. Doesn't everything have its raison d'être! The Masters who are united here are working accordingly and we are pleased with the results. This is how it is. The best to all under our blessings."
