Whispers from The Brighter World

Tuesday, March 31, 2015 — 10:00 a.m.

The Masters of the past, united with one another, are casting their eyes upon the great work that is being erected in Hyderabad. There the sanctuary of Sahaj Marg will stand — a place where great things will be accomplished spurred on by the current Master, Kamlesh Patel. He has the appropriate stature to successfully manage such a project. We expect much from him for the realisation of that work. It will carry his personal stamp according to our wishes. Nothing is too beautiful to celebrate the greatness of this spiritual path, as it will be perceived in the future. Precedents have thus left their mark on this world; why would Sahaj Marg not do the same in its own context! History repeats itself — to each era, its own.

"Great structures around the world tell the story of humankind, and this in various forms; this history continues, and the Mission of Sahaj Marg has its place in it, much more than abhyasis of today may think. It always takes time for events to truly make their mark on history. Each human being is advancing in the discovery of his or her own history — all are progressing in their own way and thus contributing to human evolution as a whole. Yes, that site will be visited and enjoyed; it will be highly charged with divine grace. We can only welcome it and encourage our dear and great son Kamlesh to take in hand, one might say, the completion of this great work that is blessed by us all here.

"May the best take place for this entire Mission, which is desired and created by higher powers.

"This is how it is."
