Whispers from The Brighter World

Monday, April 20, 2015 — 10:00 a.m.

This moment is pleasant; it engenders happiness. This meeting is known to the many souls who follow this ritual assiduously. May our incarnate brothers and sisters fully grasp the importance of these writings. They are genuine and will remain a reference in our Mission; this should be emphasised once again. To rise above the baseness of this world is wise, and it gives strength to the aspirant on his or her journey towards the Eternal. Our chosen scribe has accomplished her task with love and a true detachment from human mores and conventions. Her commitment towards us has, on its own, produced her action; it is unique, and we appreciate it.

"This history of messages is not commonplace. Only this kind of love could yield such a treasure, one that will help our dear Kamlesh. He has entered into his role brilliantly, and he will leave his unique stamp on our Mission. Doesn't everything have its raison d'être! Again, our choices are justified. From here we can see the world and humans as they really are, and this allows us to make the choices that are called for when necessary. Far from this world of illusion that defines humanity, we can act with full consciousness — detached, for good reason, from material interests. May this beautiful Mission of Sahaj Marg never cease to evolve and thus help the greatest number to advance towards the goal — the ultimate one and the only one that is worthwhile. Earthly riches are merely an illusion and can vanish in an instant. This is how it is.

"May all be lifted and enlightened at the highest level, under our blessings."
