My Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Sunday, May 10, 2015 — 10:00 a.m.

This visit has been beneficial for all; the visit of a spiritual Master is always a grace. Sahaj Marg will go far in its expansion on Earth; the human being will feel an ever increasing need to connect to the Divine. Upcoming upheavals will bring about many changes, including a different energy, a vibration perceptible by beings who are sensitive to its manifestation. Following such a spiritual path enables the opening of vital centres at subtler levels. This is not about a simple process; other effects occur for the welfare of diligent practitioners who are convinced of the path's benefits.

"May the time come when this world will open up to the splendour of the sovereign Spirit. On the whole, the results obtained by this spiritual path are quite appreciable. A dramatic breakthrough will occur, and the best will be established for the future, and for the action of this outstanding work in people's hearts. Let us not put pressure on our brothers and sisters; their deepest convictions about these matters will become stronger with time and through proper practice. The challenge lies here: to lead abhyasis more and more to truly commit themselves, for their own good.

"May peace and love prevail in people's hearts, for the greater good of humanity."
