Whispers from The Brighter World

Friday, May 15, 2015 — 10:00 a.m.

Another page of our history is being written; the new Master is initiating an unusual action which will prevail over time and foster an unparalleled expansion. Doesn't everything have its raison d'être! The new era is dawning on the horizon and our path will adapt itself to new principles capable of promoting its effects in the heart. Within each person lies the wonder, the connection with the Divine and the incumbent spiritual Master who facilitates it at the highest level. Such work is carried out on the material plane, supported by the higher power that is more active than it seems.

"The real purpose of an incarnation is to progress, to recognise the higher will and adapt to its sacred principles. Nothing is lost, everything is counted. This fact should be considered seriously; it is crucial in a process in which the soul must rise and overcome the lowest stage of human evolution. The heart, this sacred space within each of our brothers and sisters, is being won over with time through appropriate practice and commitment towards the incarnate Master — he who holds the sacred powers representing the alliance of Masters who support and are attentive to this extraordinary Mission.

"We are repeating ourselves for good reason — aren't repetitions the very principle of life! May all be more committed than ever, and with fervour, to this journey towards the Ultimate where they are awaited. Ceaseless blessings upon the entire Mission."
