Whispers from The Brighter World

Thursday, May 21, 2015 — 10:00 a.m.

For our part, we know what you are enduring, my dear daughter; barriers belonging to this world of illusions do not exist here. What you give to us is given out of love, which makes these writings all the more special and important. They convey an energy that can be perceived by fervent hearts that are sensitive to this subtlety of vibration. We support you with love. Do not be embarrassed by these words. Why shouldn't we express ourselves here with regard to our dearest scribe? Our great Kamlesh must spare himself; a spiritual Master is not made of iron. We need him, and for a long time to come. He begins his new life in a masterly fashion. These most recent seminars have particularly touched our brothers and sisters, and they wish to enjoy such seminars many, many times. Sahaj Marg is following its trajectory; it is blessed by the gods in its action on beings who are receptive to its benefits. This will be appreciated all the more in the future, and it will naturally prevail in people's hearts.

"Many changes will happen on Earth, but the aspiration to the Divine will not falter; on the contrary, it will manifest more and more, far from dogmas and rites, through a real need to unite with this power — one that is without equal. Let us work tirelessly towards this goal, namely the heart — the seat of the soul, a very precious organ for the human being in all respects, including our action which takes place at subtle levels that are decisive for the spiritual evolution of each person.

"The best to all our brothers and sisters. All are blessed and supported by our action."
