Whispers from The Brighter World

Sunday, May 24, 2015 — 10:00 a.m.

Your life has not been ordinary. Each incarnation meets a specific need, a life path that is essential to the elevation of the being, and even more so to his or her realisation.

Sufferings are many and inevitable. No one escapes them, though some people are more subjected to them than others. This is how it is. The path of life is not simple; the ability to adapt to circumstances and make the most of a situation shows some wisdom. The Great Beings demonstrate this well enough, serving as an example. No one is spared; in this lies an opportunity for everyone to rise and obtain the best. Sahaj Marg is a valuable aid, since real work is done therein. It is not easy to assess this work, but you can be sure it is effective. Many souls are confused, waiting and hoping for that which is geared towards developing the whole being and which can only be achieved beyond material comfort.

"Spirituality is the most critical aspect of the human being; missing an opportunity such as this is highly unfortunate. Our abhyasis have found their way, the one that suits them, though some of them sometimes doubt it. Certitude is not easy to achieve; who can really claim that they always make the right choices? Regarding the path we propose, there is no doubt — our aspirants could not have made a better choice. May they be convinced of it and act accordingly in order to go as far as possible. Such an opportunity should be grasped; time is precious, much more so than humans can imagine. Everything is counted, precise and decisive in each person's process — hence our constant attention and our blessings."
