Whispers from The Brighter World

Monday, May 25, 2015 — 10:00 a.m.

Be at ease — this meeting of hearts is a rare blessing; your heart rejoices in it, and many others benefit and are delighted by it. As they read our comments, they can feel the very special energy being transmitted throughout these lines. Our system has a number of features: transmission is one of them, and its work is very effective. Future times, along with everything they will bring to this Earth, will foster a progress that is unprecedented in the current era. Sahaj Marg will adapt to these new conditions, evolving in its own manner while respecting the foundations first laid down on the material plane. Its impact on people's hearts will continue to grow; these prospects are gratifying for one and all, and for those of us who are following this spiritual movement with the greatest attention.

"Advancement is the goal of any incarnation. Each element of a life is important, being aimed at elevating the soul and contributing to the edifice that is being developed. Reincarnation allows for a long process, through which the characteristics of each person, according to his or her karma, are expressed in a specific manner and along an unavoidable course of action. These mysteries of life cannot be revealed to human beings, who are associated with matter; the Spirit dominates them and its principles escape them. They are so small in this divine scheme where a pulsation of life animates them for a shorter or longer period of time, according to circumstances. Working in this area is not a trivial matter, and following such a spiritual path is not pointless. May all truly become aware of this and be even more committed to an unprecedented global advancement.

"To all, peace and love."
