Whispers from The Brighter World

Monday, July 13, 2015 — 10:00 a.m.

Sahaj Marg is within the reach of all fervent beings who are yearning for spiritual guidance appropriate to their need. Many souls thus come forth, carried by a path that seems simple, yet is capable of producing the best outcomes — we can assess its beneficial aspects. It takes a long journey to reach the best that can be. Efforts are needed, and nothing can be won over easily at such a level, but success is there. It emerges with time and the call of a fervent heart. Be assured that all our brothers and sisters are helped as needed. We cannot solve everything, but doing the best for each one is the challenge of our action. A spiritual unity like that of Sahaj Marg is no small accomplishment. It is getting its bearings over time and positioning itself in order to last a long while, you can be sure.

"More and more souls will be in need, and this response to that need has long been planned. Everything in this world is being set up to meet the needs of a new era that is in the offing. Everything is slow here below but ends up taking place at the opportune moment. The human being is a particle of life caught in the great movement of this planet Earth — one's fate is written and everything goes ahead as planned. What else can be done other than to accept and act as best as possible so as not to waste time. Spirituality is within the reach of all. May every human being realise the need to move towards it. Its action is redeeming, hence our ceaseless action. May each of our brothers and sisters open their hearts to fully receive its beneficial effects. We carry each one in our own manner.

"This is how it is."
